Ages 6 - 13 No karate experience necessary

STRIVE FOR BETTERMENT OF CHARACTER

PROTECT THE WAY OF TRUTH

RESPECT OTHERS

FOSTER THE SPIRIT OF EFFORT

GUARD AGAINST IMPETUOUS COURAGE

Our unique After School Karate program channels after school energy into a positive, productive afternoon of supervised homework, fun activities and quality martial arts training. Our program provides for a safe space for your child from the time they get out of school until you get off work. And we work with you and your child to motivate them to be the best that they can be.

Our after school karate program blends two important programs into one. First, we are dedicated to the scholastic achievement of our martial arts students. We stress a minimum B average to graduate to the next belt level, and we reward achievers. We provide supervised homework time, and check students' homework agendas before dressing for Karate class. Second, after homework is complete, students join our quality martial arts classes for 1-2 classes per day. Karate promotes physical development, stamina and coordination. It also provides a fun, social and high-energy balance to academic work.

Our after school karate program is not a day care. But it is a great alternative. In our studio, we create a respectful, cooperative environment in which kids have responsibility for others and show respect to others. We also teach students to manage responsibilities that are theirs alone: a clean uniform, homework agenda, a B average and respectful interactions. Our program stresses personal discipline, taking responsibility and setting goals—skills that carry us through life. We also promote self-confidence and self-respect, which give your child the courage to say NO in the face of peer pressure.

Best of all, our martial arts classes are full of excitement and fun! Your children will train with some of the country's best karate athletes, and witness the rewards of perseverance and hard work. You can feel confident your children will be receiving the finest instruction available from instructors committed to excellence and continued learning.
